

# you can make a difference!

Be an organ/tissue donor • Be an organ/tissue donor • Be an organ/tissue donor

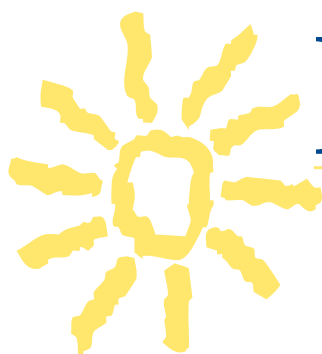

Lydia lived with the challenges of juvenile diabetes since being diagnosed with the disease at age 7. By her early 20s, years of diabetes had taken its toll. She needed a cornea for her failing eyesight and a kidney and pancreas transplant to save her life.

Through the selfless giving of two donors, Lydia received her cornea, kidney and pancreas transplants. Today, she leads an active life playing volleyball and basketball, and is forever grateful to her donors and their families.

**Please join the Organ/Tissue Donor Registry today and give someone else a second chance at life.**
