Kidney recipient
Morris, IL*

are **YOU** registered to be
an organ/tissue donor **?**

At age 12, Fabiola's health was deteriorating quickly and doctors could not determine the cause. Her worst nightmare came to fruition when tests revealed her kidneys were rapidly failing. Her life depended on a kidney transplant.

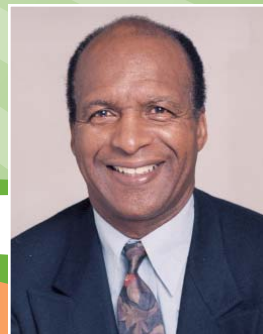

Because someone said YES to becoming an organ donor, Fabiola received a kidney transplant and a second chance at life.

It's been two years since her transplant and Fabiola is feeling great! She and her family give thanks every day for her hero, her organ donor.

Please join the Organ/Tissue Donor Registry today.

it's up to
YOU
