

*Alecia McClung (left)
Kidney and pancreas recipient
Aurora*

are **YOU** registered to be
an organ/tissue donor **?**

When Alecia was pregnant with her third son, she was afraid the diabetes from which she had suffered since childhood might make it impossible for her to live a normal life with her family. During her pregnancy she was told she needed a kidney and pancreas transplant. She received her gift of life in December 2003. A year later she met her donor's mother, Penny Bady (above right) — who had given Alecia the ultimate gift of her 15-year-old son's kidney and pancreas. Since that meeting, Alecia and Penny have done numerous donor presentations together. "If I can give encouragement to others, I will," said Alecia. "If I can give encouragement to those going through what I experienced, I feel blessed."

Please join the Organ/Tissue Donor Registry today.

it's up to
YOU
