

*Sandy
Kidney and Pancreas recipient
Wheaton*

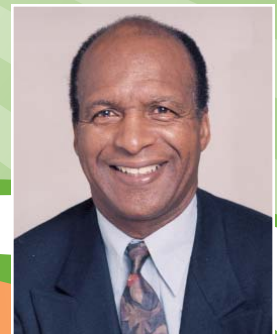

are **YOU** registered to be
an organ/tissue donor **?**

Sandy appreciates even the smallest of life's pleasures, like eating a piece of cake on her birthday. Since age 5, Sandy has had juvenile diabetes that meant a restricted diet, regular insulin injections and eventually kidney dialysis. Because of the generosity of the family of a young girl, Sandy received a kidney and pancreas transplant that saved her life. Today, Sandy celebrates two birthdays — the day she was born and the very special day when her life returned after a successful organ transplant.

Please join the Organ/Tissue Donor Registry today.

it's up to
YOU
