

# you can make a difference!

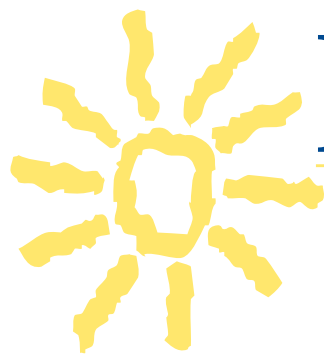

Be an organ/tissue donor • Be an organ/tissue donor • Be an organ/tissue donor

Jim learned he had polycystic kidney disease in 1972 when he volunteered to give blood. During the next 17 years he endured health problems related to the condition, requiring several hospitalizations and testing. In August 1988, his kidneys failed, he started hemo dialysis and was placed on the transplant waiting list. He received a call in March 1989 that a donor kidney was available. Jim has led a very normal life over the past 18 years. His wife's son passed away in October 2001 and was a donor. Jim and his family volunteer for donor awareness in the Peoria area as a way to say thanks for his lifesaving transplant.

Please join the Organ/Tissue Donor Registry today and give someone else a second chance at life.

**Jim Tilton**  
Kidney Recipient — Peoria, IL
