Living Donor Kidney recipient
Roscoe, IL*

are **YOU** registered to be
an organ/tissue donor **?**

Terry Mitchell received a kidney transplant in 1987 after suffering from polycystic kidney disease since being diagnosed at age 15. Twenty-two years later, his daughter Michelle was suffering from the same hereditary disease and in need of a kidney transplant. In March 2008, Michelle's sister Denise was tested as a living kidney donor. A near perfect match, Denise gave the gift of life to her sister in July 2009. Both Michelle and Denise are doing well a year after donation/transplant.

Please join the Organ/Tissue Donor Registry today.

it's up to
YOU
